Preferred times to visit this site:

Spring Summer Fall Winter
 Morning Mid day Evening High tide Low tide Anytime

What was of special interest on this trip? (highlights of trip, unusual birds, mammals, feral animals, conservation issues, etc.)

GGAS Field trips are provided for the pleasure of our members and guests. The Board of Directors encourages field trip leaders to begin trips with participant introductions. It can be helpful to ask if: anyone is on their first field trip, is a GGAS member, are from out of town, is a new birder, or is interested in a particular species, or aspect of the trip. When the participants are comfortable with each other, your job as a leader will become much easier, and everyone will have a great time, too!
